

Magi 65/Magi 65 Pro VIA Guide

JULY 12, 2024

Share

How to connect the keyboard to VIA?

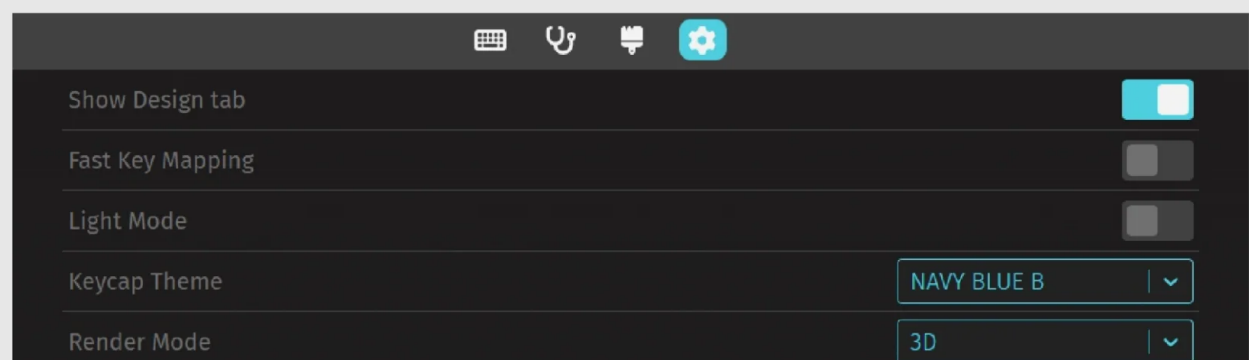

Step 1: Connect the keyboard via Wired

Step 2: Open VIA: <https://usevia.app/>

Step 3: Download JSON file [here](#)

Step 4: Turn on the Show Design TAB switch

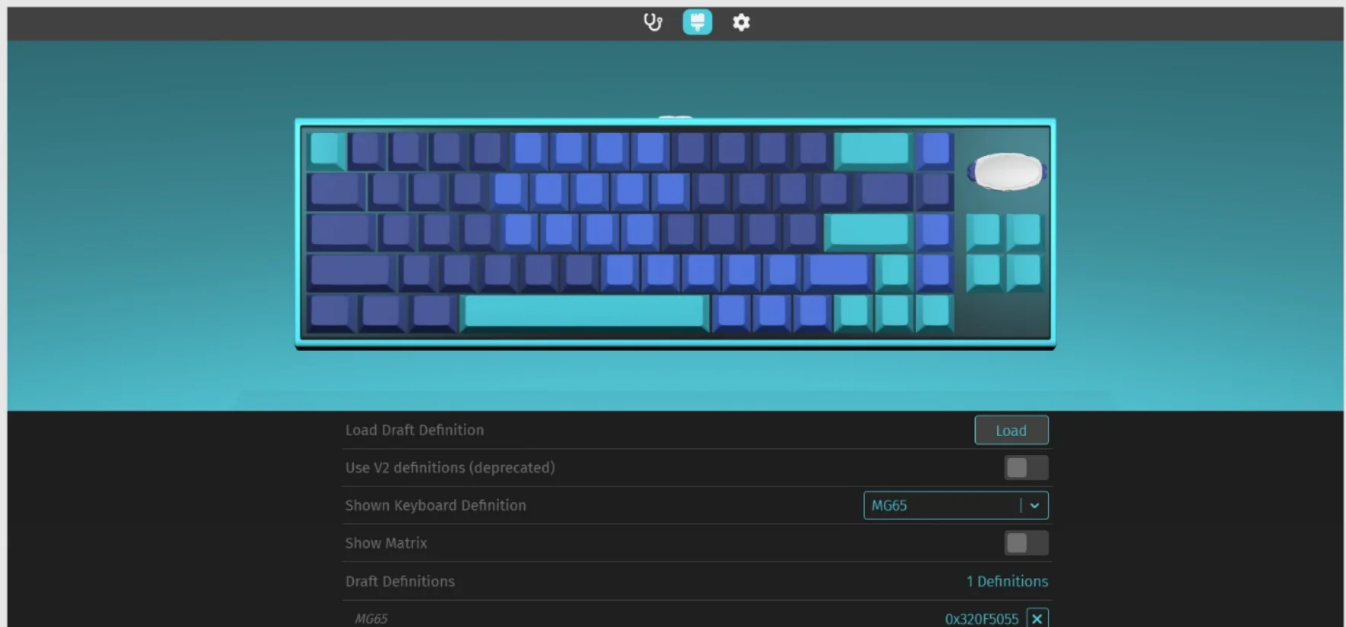

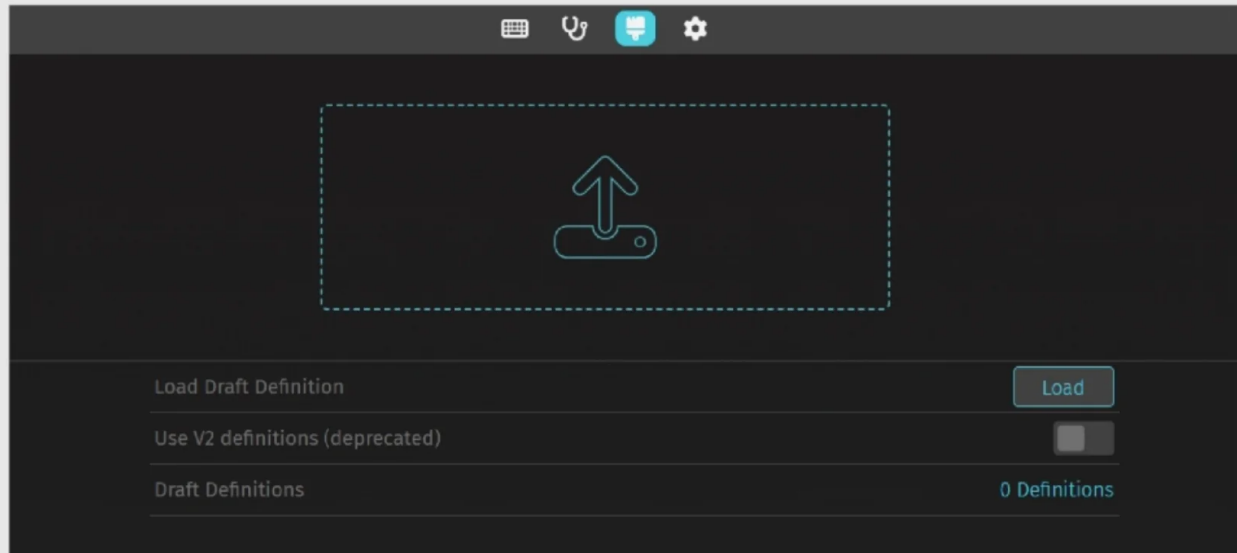

Show Design Tab

Step 5: Upload the JSON File here

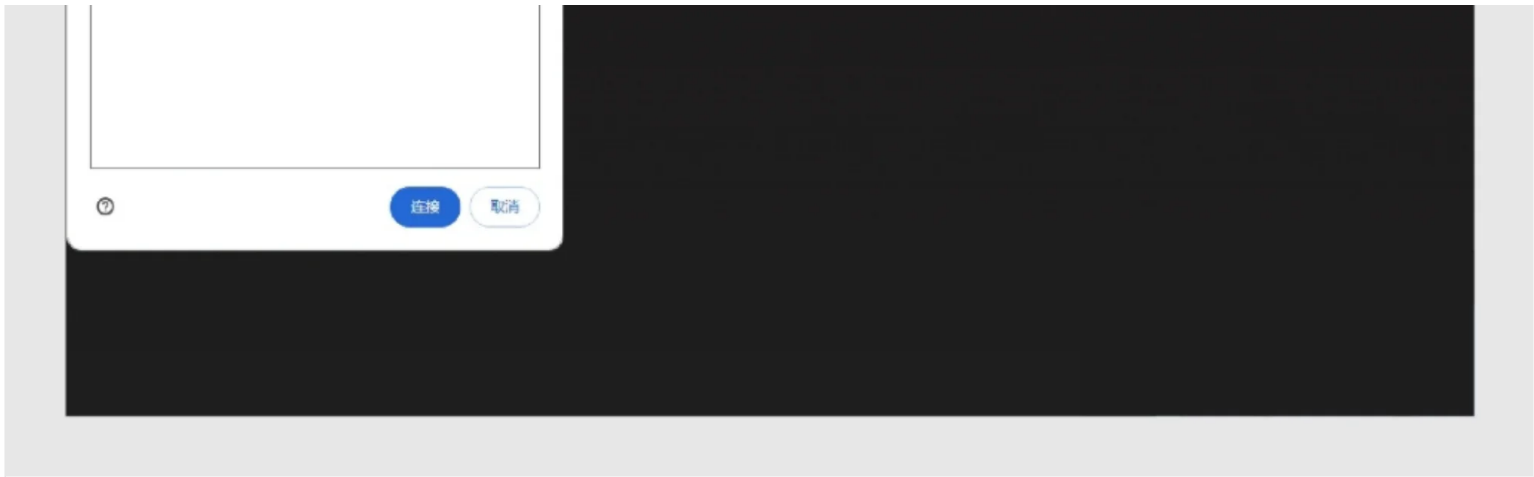

Load Draft Defintion

Load

Step 6: Connect the keyboard

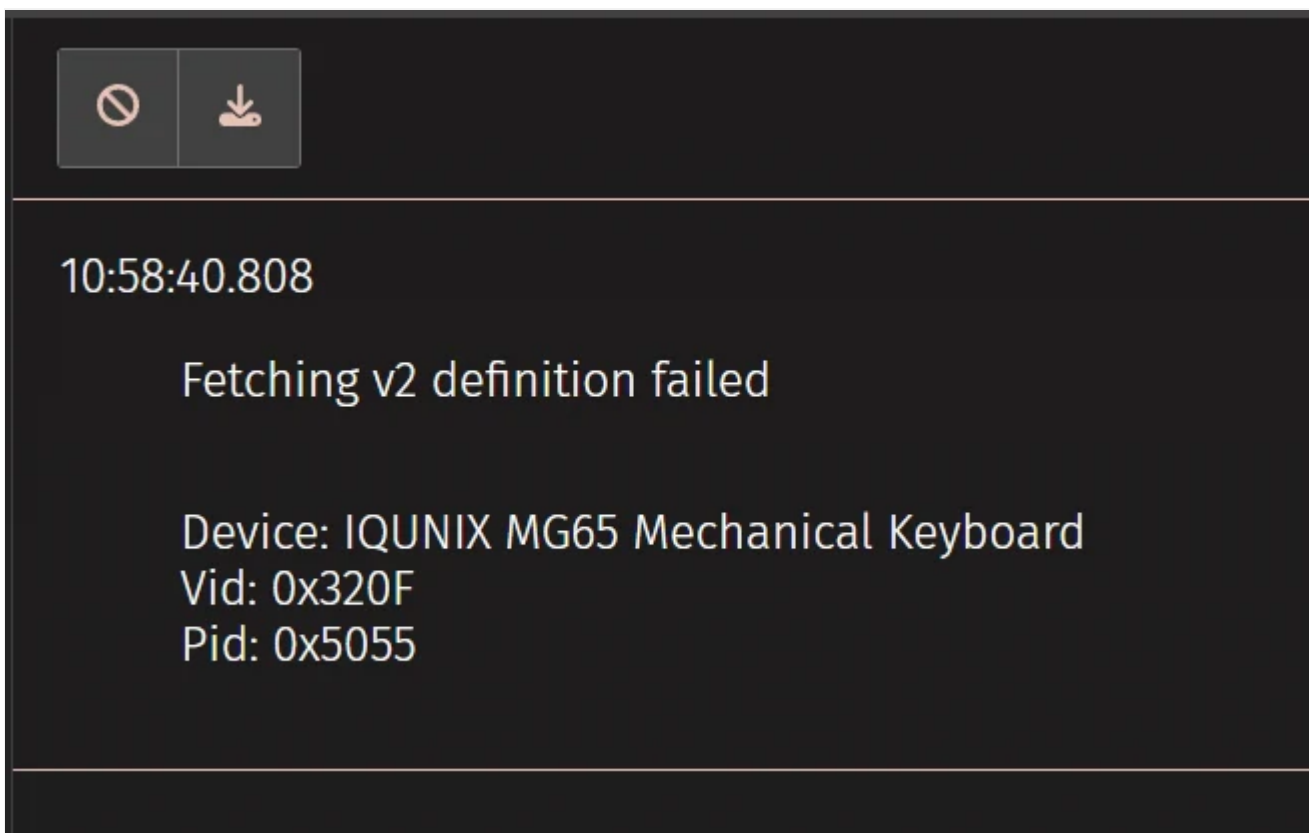

NOTE: If you get this error trying to use the steps above, please follow the guide below:

1. Download the firmware from [this link](#), and then upgrade the keyboard firmware on your Windows computer in wired connection mode

2. Try to upload the Json file again.
